Summary Care Record Including additional information	<p><b>Purpose</b> –The NHS in England uses a national electronic record called the Summary Care Record (SCR) to support patient care. It contains key information from your GP record. Your SCR provides authorised healthcare staff with faster, secure access to essential information about you in an emergency or when you need unplanned care, where such information would otherwise be unavailable.</p> <p><b>Legal Basis –</b></p> <ul style="list-style-type: none"> <li>Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’; and</li> <li>Article 9(2)(h) ‘necessary for the purposes of preventative or occupational medicine’</li> </ul> <p>Patients have the right to opt out of having their information shared with the SCR by completion of the form which can be downloaded <a href="#">here</a> and returned to the practice. Please note that by opting out of having your information shared with the Summary Care Record could result in a delay to care that may be required in an emergency.</p> <p><b>Processor</b> – NHS England</p>

Research	<p><b>Purpose</b> – We may share anonymous patient information with research companies for the purpose of exploring new ways of providing healthcare and treatment for patients with certain conditions. This data will not be used for any other purpose.</p> <p>Where personal confidential data is shared your consent will be required.</p> <p>Where you have opted out of having your identifiable information shared for this Planning or Research your information will not be shared.</p> <p><b>Legal Basis</b> –</p> <ul style="list-style-type: none"> <li>• Articles 6(1)(a) and 9(1)(a) – explicit consent; or</li> <li>• Article 6(1)(c) (where we are <i>legally obligated</i> to share your personal data) for your standard personal data and Article 9(2)(j) (scientific research) for your health data.</li> </ul> <p>Where identifiable data is required for research, patient consent will be needed, unless there is a legitimate reason under law to do so or there is support under the Health Service (Control of Patient Information Regulations) 2002 ('section 251 support') applying via the Confidentiality Advisory Group in England and Wales.</p> <p>Sharing of aggregated non identifiable data is permitted.</p>
Individual Funding Requests	<p><b>Purpose</b> – We may need to process your personal information where we are required to fund specific treatment for you for a particular condition that is not already covered in our standard NHS contract.</p> <p>The clinical professional who first identifies that you may need the treatment will explain to you the information that is needed to be collected and processed to assess your needs and commission your care; they will gain your explicit consent to share this. You have the right to withdraw your consent at any time but this may affect the decision to provide individual funding.</p> <p><b>Legal Basis</b> –</p> <ul style="list-style-type: none"> <li>• Article 6(1)(e) '...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...'; and</li> <li>• Article 9(2)(h) 'necessary for the purposes of preventative or occupational medicine'</li> </ul> <p><b>Data processor</b> – Longlevens Surgery Medical Secretaries/Gloucestershire ICB</p>

Safeguarding Adults & Children	<p><b>Purpose</b> – We will share personal confidential information with the safeguarding team where there is a need to assess and evaluate any safeguarding concerns and to protect the safety of individuals.</p> <p>Consent is not required to share information for this purpose.</p> <p><b>Legal Basis</b> – Direct Care under UK GDPR:</p> <ul style="list-style-type: none"> <li>• Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’; and</li> <li>• Article 9(2)(h) ‘necessary for the purposes of preventative or occupational medicine</li> </ul> <p><b>Data Processors</b></p> <ul style="list-style-type: none"> <li>- Adults – Safeguarding team – GSAB</li> <li>- Childrens - Safeguarding team – GSAB</li> </ul>
Risk Stratification – Preventative Care	<p><b>Purpose</b> - ‘Risk stratification for case finding’ is a process for identifying and managing patients who have or may be at-risk of health conditions (such as diabetes) or who are most likely to need healthcare services (such as people with frailty). Risk stratification tools used in the NHS help determine a person’s risk of suffering a particular condition and enable us to focus on preventing ill health before it develops.</p> <p>Information about you is collected from a number of sources including NHS Trusts, GP Federations and your GP Practice. A risk score is then arrived at through an analysis of your de-identified information. This can help us identify and offer you additional services to improve your health.</p> <p>If you do not wish information about you to be included in any risk stratification programmes, please let us know. We can add a code to your records that will stop your information from being used for this purpose. Please be aware that this may limit the ability of healthcare professionals to identify if you have or are at risk of developing certain serious health conditions.</p> <p><b>Type of Data –</b> Identifiable/Pseudonymised/Anonymised/Aggregate Data</p> <p><b>Legal Basis –</b></p> <ul style="list-style-type: none"> <li>• Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’; and</li> </ul>

Payments	<p><b>Purpose</b> - Contract holding GPs in the UK receive payments from their respective governments on a tiered basis. Most of the income is derived from baseline capitation payments made according to the number of patients registered with the practice on quarterly payment days. These amounts paid per patient per quarter varies according to the age, sex and other demographic details for each patient. There are also graduated payments made according to the practice's achievement of certain agreed national quality targets known as the Quality and Outcomes Framework (QOF), for instance the proportion of diabetic patients who have had an annual review. Practices can also receive payments for participating in agreed national or local enhanced services, for instance opening early in the morning or late at night or at the weekends. Practices can also receive payments for certain national initiatives such as immunisation programs and practices may also receive incomes relating to a variety of non-patient related elements such as premises. Finally there are short term initiatives and projects that practices can take part in. Practices or GPs may also receive income for participating in the education of medical students, junior doctors and GPs themselves as well as research. In order to make patient based payments basic and relevant necessary data about you needs to be sent to the various payment services. The release of this data is required by English laws.</p> <p><b>Legal Basis –</b></p> <ul style="list-style-type: none"> <li>• Article 6(1)(c) 'processing is necessary for compliance with a legal obligation to which the controller is subject'; and</li> <li>• Article 9(2)(h) 'necessary for the purposes of preventative or occupational medicine'.</li> </ul> <p><b>Data Processors –</b> NHS England, ICB, Public Health</p>

	<p><b>Processor: NHS England</b></p> <p><b>Local shared care record – JUYI – Joining Up Your Information</b></p> <p><b>Purpose:</b> Health and Social care services are developing shared systems to share data efficiently and quickly. It is important for anyone treating you to be able to access your shared record so that they have all the information they need to care for you. This will be during your routine appointments and in urgent situations such as going to A&amp;E, calling 111 or going to an Out of hours appointment. It is also quicker for staff to access a shared record than to try to contact other staff by phone or email. Only authorised staff can access the systems and the information they see is carefully checked so that it relates to their job. Systems do not share all your data, just data which services have agreed is necessary to include.</p> <p>For more information see: <a href="#"><u>Joining Up Your Information : One Gloucestershire</u></a></p> <p><b>Legal Basis –</b></p> <ul style="list-style-type: none"> <li>• Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’; and</li> <li>• Article 9(2)(h) ‘necessary for the purposes of preventative or occupational medicine’</li> </ul> <p><b>Processor:</b> – NHS Gloucestershire ICB, Kainos, Orion</p>

Brave AI	<p>At Longlevens Surgery, we are committed to protecting your privacy and ensuring the confidentiality of your information.</p> <p>We want to provide you with insight into how BRAVE AI is utilised across Primary Care Networks in Gloucestershire ICB and its potential impact on your healthcare. BRAVE AI serves as a clinical decision support tool, empowering clinicians to make well-informed decisions about individualised care plans. It's essential to understand that the tool itself does not autonomously make decisions regarding interventions; instead, it assists healthcare professionals in their decision-making process.</p> <p>BRAVE AI employs sophisticated computer algorithms to evaluate the complexity of each patient's health needs within our practice. By assigning a score, it helps identify individuals at risk of deteriorating health, potentially necessitating hospitalisation. This innovative tool enhances our ability to recognise patients who may otherwise be overlooked, including those with borderline health indicators or infrequent medical interactions.</p> <p>It's crucial to emphasize that BRAVE AI does not utilise identifiable patient data. However, the provision of NHS numbers enables our practice to pinpoint individual patients who may benefit from interventions. All data processed by BRAVE AI is stored securely and confidential patient information is exclusively disclosed to clinical teams directly involved in patient care.</p> <p>The primary objective of BRAVE AI is to promote preventive healthcare practices over reactive treatments. It facilitates proactive discussions with patients regarding their overall wellbeing, extending beyond mere medical concerns. These conversations may involve various healthcare professionals, including Health Coaches and nurses, in addition to GPs.</p> <p>Should you have any questions or concerns regarding the processing of your data alongside BRAVE AI, we encourage you to contact us at <b>NHS SOUTH, CENTRAL AND WEST COMMISSIONING SUPPORT UNIT</b>) <a href="mailto:caroline.dominey-strange@nhs.net">caroline.dominey-strange@nhs.net</a></p>

<b>OpenSAFELY COVID-19 and Data Analytics Services</b>	<p>How we use your information - OpenSAFELY</p> <p>Our practice is required by law to provide pseudonymised patient data to NHS England's OpenSAFELY Data Analytics Service. This is a secure environment, hosted by our clinical system supplier TPP SystmOne. Where data is used for research, planning and evaluation to improve NHS care.</p> <ul style="list-style-type: none"> <li>• The data is pseudonymised (identifiers such as name, date of birth, address are removed or replaced with codes).</li> <li>• Data never leaves the secure environment provided by the system supplier. Only aggregate results are shared with approved researchers.</li> <li>• The service is run under a formal Data Provision Notice (DPN) issued by NHS England, which GP practices are legally required to comply with.</li> <li>• Our practice remains the data controller for the information we hold.</li> <li>• Your Type 1 Opt-Out choice (preventing your confidential information being used for planning or research) will still be respected, except for a small number of specific public health projects where national regulations apply.</li> </ul> <p>You can read more about OpenSAFELY at:  <a href="https://opensafely.org/">https://opensafely.org/</a>    Information on NHS England's legal basis for this data use is available at: NHS Digital Data Provision Notices.
